

## Chemistry Paper 2 recall booklet

This booklet contains information on the following:

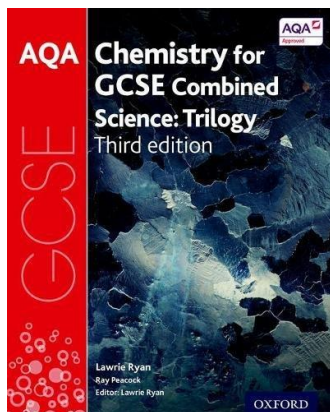

This booklet contains all the recall facts you need to try to learn off by heart.

- Rates of reaction and reversible reactions
- Crude oil and fuels
- Chemical analysis – pure substances and mixtures
- Earth's atmosphere
- Earth's resources – potable water, recycling

You also need to use kerboodle – our online resources to read extra information in the text book.

The online text book is:

AQA Chemistry for GCSE combined science trilogy

Your test will include information on:

- Chapter C8 – Rates and equilibrium
- Chapter C9 – Crude oil and Fuels
- Chapter C10 – Chemical analysis
- Chapter C11 – The earth's atmosphere
- Chapter C12 – the Earth's resources

Why not try to read the information and answer some of the questions to help check your understanding and knowledge of these topics?

Alternatively – why not watch the revision videos at:

<http://freesciencelessons.co.uk/new-gcse-spec/>

Look at all the chemistry paper 2 topics for the new 9-1 specification
